OFFICERS MAY BE REINSTATED BY CONGRESS

HOW YOU MAY THROW AWAY YOUR GLASSES

The statement is made that thousands wear eyeglasses who do not really need them. If you are one of these unfortunate, then these glasses may be ruining your eyes instead of helping them. Thousands who wear these "windows" may prove for themselves that they can dispense with glasses if they will get the following prescription filled at once: Go to any active drug store and get a bottle of Opton's eye water and drop in one Opton's tablet. With this harmless liquid solution bathe the eyes two to four times daily, and you are likely to be astonished at the results right from the start. Many who have been told that they have astigmatism, eye-strain, cataract, sore eyelids, weak eyes, conjunctivitis and other eye disorders, report wonderful benefits from the use of this prescription. Get this prescription filled and use it; you may so strengthen your eyes that glasses will not be necessary. Thousands who are blind, or nearly so, or who wear glasses would never have required them if they had cared for their eyes in time. Save your eyes before it is too late! Do not become one of these victims of neglect. Eyeglasses are only like crutches and every few years they must be changed to fit the ever-increasing weakened condition, so better see if you can, like many others, get clear, healthy, strong magnetic eyes through the prescription here given.—advertisement.

Beached Freighter in Grave Peril.
A victim of a disastrous typhoon that swept the northern Philippines a few weeks ago, a large freighter, high and dry near the shore line of Legaspi, is declared to be in grave danger of going to pieces. According to cablegraphic advices received in Manila the British steamer Hyndford is stranded on the beach near the town of Legaspi and is in a precarious position. With every succeeding report from the weather bureau making it more certain that the typhoon hovering south of Manila will pass over that location, great injury to the vessel or perhaps its total destruction is imminent.

Manchuria and 11 of the 17 provinces forming China proper are declared to be free of opium.

HEIRESS DOUBTS FORTUNE LEFT TO HER IN HAWAII

According to the St. Louis Times of July 17 but little time was lost in locating Miss Irene Mae Faust who, according to the Boston Herald of July 14—as told in yesterday's Star-Bulletin—is the alleged heiress to a fortune of \$100,000 in Hawaii.

The Times says: News received on her 20th birthday anniversary that she would receive \$100,000 from the estate of Emil Faust, late of Hawaii, an uncle, failed to agitate Irene Elizabeth Faust of 2057 East De Soto street, a showworker. This was because Miss Faust does not believe any such good fortune is to come to her. She regards the news as the result of some friend's humorous tendencies.

The information regarding the fortune was contained in a dispatch from Lynn, Mass., where Robert K. Batchelder, an attorney, was said to have offered a reward of \$100 for information of Miss Faust's whereabouts. It was said Mr. Batchelder had learned Miss Faust's St. Louis address. The dispatch gave the middle name of the girl sought as May, instead of Elizabeth, but Mr. Batchelder was said to be satisfied he had found the right girl.

Mrs. George Faust, a widow, mother of the St. Louis girl, told a reporter for the St. Louis Times Friday her husband had an uncle who disappeared from Louisville, Ky., 50 years ago, and from whom nothing had since been heard. She did not know the uncle's name and could not conceive of how he could have heard of his St. Louis grandniece. Mrs. Faust also said it was strange that nothing should have been said about her son, Edward, brother of the supposed heiress. Mrs. Faust said the grandniece, if he were living now, would be about 90 years old.

Mrs. Faust's husband died seven years ago. The only immediate relative he had was a sister, who also is dead, Mrs. Faust said. She declared she had relatives in Louisville, Ky., to whom she would write in an effort to learn if the fortune really has been left to her daughter. She said she would not write to Mr. Batchelder, but would wait until she heard from him.

JAPAN WILL SOON BE IN TOUCH BY WIRELESS

Steamers in the transpacific service will, within a few months, be able to remain in constant communication with the Japanese empire for thousands of miles off the coast; is the prediction made today in this city. It is announced that the Japanese government has refused to grant a concession to the Marconi system which has just completed the installation of two plants on the island of Oahu.

Local advices are to the effect that the Japanese government department of communications has selected Hiram and Oral, rated as experts, who will build a series of plants in the prefecture of Ibaragi.

Officers in the steamer Anyo Maru that visited the port early in the week stated that two masts had been erected, each 220 feet in height. The plant will develop 300 kilowatts and is now being rapidly completed.

The plant will be capable of sending and receiving messages 3400 miles. This area is believed will insure perfect communication day or night with the territory of Hawaii.

Five men were instantly killed and six others buried and badly injured in a sewer cave-in in Bayonne.

WHAT THIN FOLKS SHOULD DO TO GAIN WEIGHT.

Physician's Advice for Thin, Underdeveloped Men and Women.

Thousands of people suffer from excessive thinness, weak nerves and feeble stomachs who, having tried advertising flesh-makers, food-fats, physical culture stunts and rub-on creams, resign themselves to life-long skinniness and think nothing will make them fat. Yet their case is not hopeless. A recently discovered regenerative force makes fat grow after years of thinness, and is also unequalled for repairing the waste of sickness or faulty digestion and for strengthening the nerves. This remarkable discovery is called Sargol. Six strength-giving, fat-producing elements of acknowledged merit have been combined in this peerless preparation, which is endorsed by eminent physicians, and used by prominent people everywhere. It is absolutely harmless, inexpensive and efficient.

A month's systematic use of Sargol should produce flesh and strength by correcting faults of digestion and by supplying highly concentrated fats to the blood. Increased nourishment is obtained from the food eaten, and the additional fats that thin people need are provided.

While this new preparation has given splendid results as a nerve-tonic and vitality, it should not be used by nervous people unless they wish to gain at least ten pounds of flesh.
